Subject: RE: Parexel PA 2

Sensitivity: Confidential

DSS:

I think that Valerie was confirming with Parexel the understanding that PM USA believes an affidavit needs to be executed for the importation of the lighter and to talk with them about how Parexel in the U.S. ships materials from the U.S. to Parexel S.A. so that we can discuss any requirements for importation. As you know, the project agreement states that Parexel U.S. (the entity with whom we are contracting) will be responsible for compliance with all laws and regulations associated with the study, including the importation of the EHCSS and cigarettes.

Amy,

Is there anything else holding up our sending out this PA for their review?

Thanks,
-L
